

PROCEDURES TO ACCESS LL DATA

DATE	VERSION	CHANGE DESCRIPTION
9/29/2022	001	Initial Version.
03/22/2023	002	Change description of status code 14 to HOLD from INCOMPLETE FILING.
04/23/2023	003	Agent Code change from Decimal to Character.
04/04/2024	004	Status 11 is changed from 'Dissolved' to 'Administratively Dissolved'.

General Information

Following is an overview of the Limited Liability Company (LLC) procedures that are utilized to obtain LLC data from the Illinois Secretary of State's office.

The data is comprised of eight (8) different data sets for each record type (Master, Name, Agent, Annual Report, Assumed Names, Old Names, Manager and Series data). Each record type can be related by a unique file number. Each file will contain a header record indicating the date and Name of file, the format of which is 'RUN DATE = CCYYMMDD FILE:<File Name>' followed by filler of spaces. Each file will also contain a trailer record indicating the end of file and total number of records in the file, the format of which is 'END OF FILE RECORD COUNT= <Count>' followed by filler of spaces. The count is defined to be 7 digits long.

There will be one set of each of these 8 files generated at the time the job runs (Daily). Each of these files generated would contain all the records and not just the additional/changed records.

For every master record collected, all record types associated with the file number will be transmitted in their own specific data set.

The Master record types will be transmitted in fixed-length one hundred and thirty-six (136) character records. All fields therein, character or numeric, are in display format (i.e., no packed fields).

The Name record types will be transmitted in fixed-length one hundred and twenty-eight (128) character records.

The Agent record types will be transmitted in fixed-length one hundred and sixty-four (164) character records.

The Annual Report record types will be transmitted in fixed-length seventy-four (74) character records.

The Assumed Names record types will be transmitted in fixed-length two hundred and eighty-one (281) character records.

The Old Names record types will be transmitted in fixed-length one hundred and thirty-nine (139) character records.

The Manager record types will be transmitted in fixed-length one hundred and sixty-three (163) character records.

The Series record types will be transmitted in fixed-length two hundred and seventy-seven (277) character records.

There will be only one (1) Master record for every file number. There will also be exactly one (1) Name, Agent and Annual Report record per file number written to the Master data set. Multiple Assumed Names, Old Names, Manager and Series records could be associated with each Master. It is also possible not to have any associated records, only a Master/Name/Agent/Annual Report. The file number is unique; it is associated with only one Master record.

The Agent record contains the agent's name and address information. There is no associated state field as all agents must have/use an Illinois address.

DATA ELEMENT DESCRIPTIONS

42001	<p>The file number is a unique number assigned to every Limited Liability Company at the time they file with the Illinois Secretary of State's office.</p> <p>Each number is processed thru a check digit routine (modified modulus 11) with the last position of each number being the check digit.</p> <p>This number will be used throughout the system when accessing this company</p>	Numeric, greater than zero and correct computed check digit.
42002	<p>The agent code will describe as an individual, or as of one of the following service bureaus, that act as agents.</p> <p>‘0’ = Individual Agent ‘1’ = CT Corporation System ‘2’ = Cogency Global Inc ‘3’ = Prentice-Hall Corp ‘4’ = US Corporation ‘5’ = Illinois Corporation Service Company ‘6’ = National Registered Agents Inc ‘8’ = Agent Vacate Pending ‘9’ = Agent Vacated</p>	Must be ‘0’ thru ‘6’. Codes ‘8’ & ‘9’ are reserved for use by ILSOS for vacating agents.
42003	The agent's name will be spelled out in this field, including any of the special coded agents.	N/A
42004	The agent's street will be described in this field, including any of the special coded agents.	N/A
42005	The agent's city will be described in this field, including any of the special coded agents.	N/A
42006	The agent's zip code will be described in this field, including any of the special coded agents.	N/A
42007	The agent's county code within Illinois, including any of the special coded agents.	Validate numeric county code thru "ILCN74" library (i.e., a called routine)
42008	This field will contain the date of the last registered agent change. It will contain the date of organization until the first agent change.	Must be numeric and greater than zero. The date is in century, year, month, and day sequence.
42009	This field will contain the business code from IRS Form 1065, which will include the purpose for which the LLC is organized.	Must be numeric and greater than zero.

42010	<p>This field will contain the current status of the LLC.</p> <p>00 = Goodstanding 08=Voluntary Diss./Terminated 01 = Reinstated 09 = Involuntary Dissolution 02 = NGS 10 = Merged 03 = Domesticated 11 = Administratively Dissolved 04 = Converted 12 = Void 05 = Agent Vacated 13 = Bankruptcy 06 = Withdrawn 14 = Hold 07 = Revoked</p>	Must be numeric and less than 15.
42011	<p>This field will contain the date the current status of the LLC was attained. On new LLCs, the date of organization with be contained in this field.</p>	Numeric and must be in century, year, month, and day.
42012	<p>The date which the LLC was organized to do business in Illinois. For foreign LLCs, this will not necessarily be the same date they were organized in their original jurisdiction.</p>	The date will be in century, year, month, and day format.
42013	<p>The latest date upon which the LLC is to dissolve.</p>	The date will be in century, year, month, and day format.
42014	<p>This indicator will describe what type of management has been selected by the LLC: 0 = No type selected (Foreign only) 1 = Member Managed 2 = Manager Managed 3 = Member and Manager Managed</p>	Must be numeric and equal to a 0, 1, 2 or 3.
42016	<p>The jurisdiction field will contain the jurisdiction which applies to the situation. This will either be a state or a country. If it is a state, then the two character alpha abbreviation will be present in this field. If the jurisdiction is a country, then this field will be numeric, and the numeric code must relate to a code on the country code table.</p>	Verify a state using "ILST74". Verify country codes by using library routine
42017	<p>The street address where the LLC will keep all records as defined in the LLC act.</p>	None
42018	<p>The city where the LLC will keep all records as defined in the LLC act.</p>	None
42019	<p>The zip code where the LLC will keep all records as defined in the LLC act.</p>	None

42020	If the LLC has adopted an assumed name, this indicator will be set. 0 = No assumed name 1 = Assumed name on file	Numeric and less than 2.
42021	If the LLC has changed its original name, an old name will then be created, and this indicator will be set. 0 = No old name 1 = Old name on file	Numeric and less than 2.
42022	This indicator will denote if any, or all, provisions have been selected by the LLC. 0 = No provisions selected 1 = Some, but not all, provisions selected 2 = All provisions selected	Numeric and less than 3.
42023	This will contain the date the annual report was mailed to the LLC.	Numeric and in century, year, month and day sequence.
42024	This will contain the date the annual report was filed.	Numeric and in century, year, month and day sequence.
42025	This will contain the date the delinquent notice was mailed.	Numeric and in century, year, month, and day sequence.
42026	This will contain the annual report filing fee collected for the reporting year.	Numeric
42027	This will contain the reporting year of the annual report. The year will not necessarily be the same as the year filed or the year the report was mailed.	Numeric and in century year sequence.
42028	This field will contain the LLC name.	None
42033	This field will contain the date the assumed name was adopted.	Numeric and in century, year, month and day sequence.
42034	This field will contain the date the assumed name was cancelled.	Numeric and in century, year, month and day sequence.
42035	This field will indicate the type of cancellation that occurred. 1 = voluntary cancellation 2 = involuntary cancellation	Numeric and less than 3.
42036	This field will contain the next year the assume name is to be renewed. This year is to be divisible by five.	Numeric and century and year sequence.

42037	This will determine the type of assumed name as by the following code: 0 = Assumed name 1 = Foreign assumed name	Numeric and less than 2.
42038	This field will contain the date the LLC old name was created.	Numeric and in century, year, month and day sequence.
42039	This field will contain the name of a manager or member of the LLC.	None.
42040	This field will contain the street address of a manager or member of the LLC.	None.
42041	This field will contain the city of a manager or member of the LLC.	None.
42042	The manager or member's zip code will be described in this field.	None.
42043	This field will contain the filed date of a manager or member of the LLC.	Numeric, and must be in century, year, month and day.
42044	This field will indicate whether this record contains a manager, member or a manager-member. 1 = manager 2 = member 3 = both a manager and member	Numeric, and equal to 1, 2 or 3.
42086	This code will describe if an LLC has “opted in” to the new LLC Act (which became effective January 1, 1998). 0 = Did not opt in 1 = Opted in	Must be numeric and less than 2.
42089	This data element will contain the date of the assumed name was renewed last.	Numeric and must be in century, year, month and day.
42097	This field will contain a number generated by the system. It is a consecutive number starting with the number 001. It is used to distinguish between multiple series with the same file number. It isn’t used for anything else except to track a particular series thru the system.	Must be numeric and less than zero.
42098	This field will contain the status of this particular series. It is either active, terminated, Involuntary Terminated or Merged. 00 = Active 01 = Terminated 02 = Involuntary Terminated 03 = Merged	Must be numeric and less than 4.

42099	This field will contain the date the status was last changed. For active it will be the date it was adopted and for terminated it will be the date it was terminated.	Must be numeric and in century, year, month, day sequence.
42100	This field will contain the date the series was adopted.	Must be numeric and in century, year, month, day sequence.
42101	This field is not currently being used.	None
42102	This field will contain the 240-character series name. It must contain the LL_Master LLC name which is the designator for this series.	None.
42103	This field will indicate whether this LLC filed as a designator to enable it to file Series. Y = Is a designator	Y or space.
42106	This field will indicate if the filing is a L3C or LWCA designation. Space and N = No indicator W = LWCA designation Y = L3C designation	Space, N, W or Y.
42107	This field will indicate if the filing has an Unacceptable payment. Y= is an Unacceptable Payment. N = Not an Unacceptable Payment.	N or Y.
